Recommended Changes

- Also, it shall be open to EU MS to organise between themselves under their responsibility such forms of cooperation and coordination as they deem appropriate between the competent departments of their administrations responsible for safeguarding national security (see Article 73, TFEU).

(look Page 4 the sentence too long should be shorter or add by coma)

Suggest change : **Organize among**

- A *political unification project* by J. Olsen (2002: 924) is the degree to which Europe is becoming a more unified political entity, related both to territorial space, centre-building, domestic adaptation and how the European developments impact and are impacted by the events and systems of governance in third countries.

(Look at the page 5, the sentence is too long which become unclear statement)

- The author still too often use the inappropriate the standard English structure such as the word "between" is prefer used among for more than two items, or the word "some" for plural like in page 6 author use some degree (lack of s).

Please recommend specific changes in the writing.

Reviewer Comments	
<p>Due this writing will be read for global viewer, the author likely focuses for the audience from EU community. The informative back ground of this writing is still moderately difficult to be understood for audience beyond EU. I suggest the author to make the stressing point about the purpose of this writing the dilemma about strict and moderate in border issue in term of increasing organized crimes.</p> <p>Finally, this writing is an interesting topic coincide the leverage of immigration issue amid disparity wealth of EU members, these challenges will prove whether EU enough solid as the unity brand.</p>

Dear Dr Muhammad Habibi Siregar

We received a manuscript **"CAREER DEVELOPMENT INFORMATION SERVICES BASED ON ISLAMIC TEACHINGS TO IMPROVE STUDENT CAREER ASPIRATIONS IN SMA NEGERI 1 NORTH SUNGKAI "**

We wish to inquire if you can find time to review this manuscript and send it to us within two weeks..

Abstract

The lack of career aspirations among students as teenagers which the results of pretest data with the smallest average of 90.86. Formulation of the problem is the needs of students, the design and development. The aim to know the needs of students, design and final design. The research used research and development method with the model of Diagram or Four-D Model. The obtain expert judgment. The population is students in grade X; 341 students. The sampling (purposive sampling) by the number of 34 students. Through limited test for 10 times it was effective and can improve students' career aspirations. It can be proved by an increasing of pre-test scores to the post-test on the scale of career aspirations generally of 32.97 points, or 36.23% and hypothesis testing of post-test results between the experimental and control groups which produced the value $t = -3.174$ and had a chance of 0.003. The value of 0.003 compared to T table 0.05, $0.003 < 0.05$. It means that it closed to 0; significant value. Therefore, it can be concluded that the H_0 hypothesis is rejected. It showed that there was a significant difference between the average level of the career aspirations of the experimental group with the control one given no treatment..

Key words: Career information service, the study of Islam.....
